WORK EXPERIENCE

Penn Biotech Group (Pro Bono Consulting) – *Student-run biotech consulting group* **Philadelphia, PA**
Business Data Analyst *Sep 2025 – May 2026*

- Built a linear regression-based market-sizing model in Excel across an 18,600-patient population, projecting $250M+ five-year revenue potential to inform a medical device client's pricing strategy
- Built unit-economics and cost-modeling analysis in Excel across two medical device startups, deriving a 333-procedure break-even and quantifying injection molding as 60–94% cheaper than 3D printing, improving gross margin up to 12% and supporting the client's first commercial scale-up
- Evaluated 10+ manufacturing partners on cost, technical capability, and production readiness with ISO/FDA compliance screening, prioritizing 5 partners for the client's sourcing decision
- Partnered with a 10-person project team through weekly syncs and requirements gathering, delivering data-driven recommendations directly to startup founders to guide pricing and scale-up decisions

QPO Energy – *Battery & energy-storage manufacturer* **Tualatin, OR**
Data Analyst Intern, Supply Chain Operations *May 2025 – Jul 2025*

- Automated order-tracking and reporting workflows in Excel using VBA and rule-based checks, replacing manual ERP data consolidation and cutting processing time by an estimated 55%
- Developed reusable Excel-based inventory and demand-forecasting models across ~100 SKUs using PivotTables, INDEX/MATCH, and scenario analysis, enabling shortage detection roughly 23% earlier than before
- Analyzed purchasing costs and supplier lead-time data to identify bottlenecks, then optimized reorder-point and safety-stock strategy, cutting supply delays 15% and saving an estimated $40K
- Standardized and validated ERP-exported data across 100+ SKUs and multiple Excel sheets, resolving an estimated 200+ formatting errors weekly to maintain daily-refreshed model accuracy

Penn Graduate Consulting Club – *Graduate pro-bono consulting club* **Philadelphia, PA**
Data Analyst, Business Consulting *Sep 2024 – May 2025*

- Cleaned and visualized pilot-study and survey data (~40 records) in Excel and Power BI to surface usability trends, driving a 34% increase in user satisfaction
- Conducted user behavior and survey analysis via correlation and segmentation, identifying navigation ease, content clarity, and onboarding flow as the top 3 engagement drivers
- Built structured comparison dashboards benchmarking 15+ competitor products across 30 dimensions in Excel and Power BI, informing product-improvement and partnership recommendations for market entry

UCSD Costing Policy & Analysis – *University financial operations office* **San Diego, CA**
Financial Data Analyst *Sep 2022 – Jun 2024*

- Built Excel-based financial and operational models supporting rate planning, resource allocation, and budgeting decisions across 50+ university departments, improving reporting consistency and workflow efficiency
- Standardized reporting templates and performed data validation via PivotTables and VLOOKUP, resolving cross-departmental discrepancies to improve data quality across multiple fiscal years
- Automated reconciliation and transaction tracking for 30+ weekly transactions using Excel formulas, streamlining reporting workflows supporting $60M+ in annual campus expenditures across departments
- Maintained SharePoint documentation and produced ad hoc financial reports for university leadership, ensuring audit-ready records and consistent data governance across 50+ departmental budgets

SKILLS

Data & Technical Tools: SQL (MySQL, PostgreSQL, BigQuery), Python (Pandas, NumPy, Scikit-learn), R, Advanced Excel (VBA, Power Query, PivotTables, INDEX/MATCH), Tableau, Power BI
Analytical Methods: Statistical Modeling & Regression, A/B Testing, Data Cleaning & ETL, Forecasting
Business: Stakeholder Management, Cross-Functional Collaboration, Requirements Gathering, Process Automation

EDUCATION

University of Pennsylvania **Philadelphia, PA**
MSE in Systems Engineering
University of California, San Diego **San Diego, CA**
B.A. in Econometrics and Quantitative Economics
